 - B a note-taking app
 - C a translation app

Unit 6: Exercise 4

Read the information. Then listen again to some extracts from the conversation. Complete the sentences.

|---|
| 1. You'll _____ working on it for almost six weeks by the end of today. |
| 2. I was certain I _____ to finish it in seven weeks. |

Unit 6: Exercise 5

Read the information. Then listen to a conversation between two students.
Complete the flow-chart. Write **ONE WORD ONLY** for each answer.

You are going to see an example of a *flow-chart completion task*.

When completing a flow-chart, listen for signalling words that help you know when the answer is coming, and remember that the questions are in the same order as the recording. There may be distractors, so listen carefully to the whole conversation.

Unit 6: Exercise 6

Look at the flow-chart and the recording script. Choose the correct letter, A, B or C.

Damien: Right, well, initially I thought we ought to look at how the assignment is being assessed, but I'm not so sure now. I think it'd be better if, first, we scheduled a meeting with the tutor. He can give us a lot of information, which I'm certain will save us time later.

Maria: That's a good idea. Seeing the tutor will help us understand just how much work's involved. What next?

Damien: Well, next, I think we need to make sure we're happy we know the main aspects that make up the assessment. We need to recognise those before we can do anything else.

Maria: Yes, I can see that makes sense. And then, we can put together a schedule for the activities we need to do. It doesn't need to be exact at that stage, does it?

Damien: I totally agree. Once that's completed, we need to calculate the possibility of something bad happening. There's always something that goes wrong, isn't there? So, we should make an evaluation.

1. Why is *schedule* not the correct answer for question 1?

- ☐ A Damien is speaking and not Maria.
- ☐ B In the recording, *schedule* is a verb.
- ☐ C The possible answers are in order.

- ☐ A give us a lot of information
- ☐ B know the main aspects
- ☐ C understand just how much work's involved

- ☐ A There is an article, *an*.
- ☐ B They are verbs.
- ☐ C They do not fit contextually.

- ☐ A calculate
- ☐ B recognize
