Group A

Bigger than Central Park
If you want to save the planet, there are millions of ways to do it.
An Indian man Jadav Payeng planted trees for more than 40 years. Every year from his childhood he plants one tree and now "Jadav's forest" is bigger than Central Park in London!
This amazing forest is home to elephants, reptiles and different birds. Jadav says that he wants to plant trees until he dies.
"Nature makes me feel good. It gives me power and helps me to live the life I have. I love it. I think I must do as much as I can to help our planet be a greener and better place" - says Jadav Payeng.

1. What is the man's name? _____

2. Where is he from? _____

3. What does he do? _____

4. Why does he do it? _____
