

# ANIMAL WORLD

**Task 1:** Listen, read and complete the fact file about the kangaroo.

**Vocabulary:**

- **pouch** – карман у самки кенгуру
- **joey** – детёныш кенгуру
- **mob** – группа кенгуру

The kangaroo is a large animal. It lives in Australia – in forests, grasslands and deserts.

A kangaroo has a strong body and legs. Its tail is long. The fur is usually brown or gray.

Female kangaroos have a pouch. The baby kangaroo, called a joey, lives in the pouch for many months.

Kangaroos do not walk. They jump to move. They can jump very far and very high. Kangaroos can also run fast – up to 70 km/h.

They eat grass, leaves and plants. Kangaroos live in groups called mobs and often stay together.

**Task 2:** Listen, read the facts about the flamingo and complete the missing words.

**Vocabulary:**

- **wetlands** – болото, водно-болотная местность
- **curved beak** – изогнутый клюв
- **filter** – фильтровать

The flamingo is a tall, pink \_\_\_\_\_. It lives near water – in wetlands, lakes, and rivers. Flamingos live in Africa, South America, and parts of Asia.

Flamingos have long legs and a long, thin \_\_\_\_\_. Their feathers are pink. Flamingos are pink because they eat \_\_\_\_\_ and algae. The food has a special color that makes their feathers pink.

Flamingos have a special \_\_\_\_\_. It is curved and helps them filter food from the water.

They can stand on one leg for a long time to rest. Flamingos can also fly and swim.

They live in large groups, \_\_\_\_\_ with thousands of birds together.
