

Sonia' s Daily routine

On weekdays, I wake up at six and get up right away. I have breakfast with my sister, then we go to school together. After math class, I eat lunch in the cafeteria and talk with friends. In the afternoon, we play soccer on the field until we finish school. At home, I take a shower and help my mom. Later, I do homework, watch TV for a short time, and play

video games with my cousin. We eat dinner at seven and share stories about the day. Finally, I read a book and go to bed before ten.

Choose the correct answer to the following questions about Sonia' s routine.
