

Chemistry Bellringers (4 Days)

Day 1: Lab Safety

1. Which of the following is NOT a safe lab practice?
 - a) Wearing goggles
 - b) Eating during an experiment
 - c) Tying back long hair
 - d) Following instructions
2. Broken glassware should always be disposed of in the _____ container.

Day 2: Physical vs. Chemical Changes

Match the change with its type:

Change	Type
Melting ice	_____
Burning wood	_____
Tearing paper	_____
Rusting iron	_____

Day 3: Physical vs. Chemical Properties

Identify whether the following are physical or chemical properties:

- a) Density _____
- b) Flammability _____
- c) Color _____
- d) Reactivity with acid _____

Day 4: Physical vs. Chemical Changes AND Properties

1. Which describes a chemical change?
 - a) Water boiling
 - b) Ice melting
 - c) Wood burning
 - d) Cutting paper
2. Explain how you can tell if a change is chemical rather than physical: _____
