

The Right Clothes: Staying Safe and Comfortable

Clothing isn't just about fashion—it can actually make life easier and even save your life! The right clothes protect us from the weather, dangerous environments, and other hazards.

Firefighters wear special suits to protect themselves from flames, while astronauts wear space suits to survive in space. In very cold or hot places, wearing the correct gear helps people avoid injuries like frostbite or heatstroke. Even simple things like wearing a raincoat or sturdy shoes can prevent problems and keep us safe. Understanding what to wear in different situations is an important part of staying healthy and safe.

Fill in the Blank: Fill in the blank with the correct words.

1. Firefighters wear _ to protect themselves from heat and flames.
