Definitions

- Break down a text to examine it closely and understand its meaning.

- Give credit to the author or source of information.
- Very clearly and directly written information, leaving no room for confusion or doubt.
- A conclusion you make using clues from the text and your own thinking.
- Specific proof from the text that supports your answer or thoughts.
- Broad, sometimes oversimplified statements that apply to many examples.
- Correct and free from mistakes.
- A mental picture or thought that helps you understand something.
- To figure out something that the author does not state directly.
- To back up or prove your answer with reasons or evidence.
- The most important pieces of information in a text.
- Nonfiction writing that gives facts about real people, events, or ideas.
