

The screenshot displays the GeoGebra Classic web application interface. On the left, the 'Algebra View' lists the objects in the workspace: points A, B, C, D, and E, a segment f defined as Segment(D, E) with a length of 8.94, and an input field. The main workspace shows a coordinate plane with these points and the segment DE. The right sidebar shows the 'Style' tab for the selected segment, with settings for Line Thickness (13), Line Opacity (75), Line Style (solid), Line Start (arrow), Line End (dash), and Decoration (none). The bottom of the screen shows a Windows taskbar with various application icons and a search bar.
