

Unit 2 Let's Recycle!

M: Hi, Jane! Have you heard about the new laws to help the environment?

W: I saw them on the news last night. I don't know much about them.

M: The government wants to encourage people to recycle. They say that by recycling paper, metal, and glass, we can save a lot of money and energy.

W: But recycling costs 50 cents a cup of coffee? That's a lot of money!

M: 50 cents? It's only five cents a cup.

W: I thought it was 50 cents!

M: No, it's only five cents. Don't worry. And you can get your money back when you return the cups.

W: That's fair. Well, I'll try to recycle, after all. I'll bring back all the cups I use from now on.

M: Good! We all need to do our part to keep the environment clean.
