Score: ☐ / 16

LIVEWORKSHEETS

READING

Task 3 **Read the text and mark the sentences below *T* (true) or *F* (false).**

Not only does school life include studying Maths and English, but it also means developing yourself in different spheres – sport, music, art and so on. Many schools have clubs for that, but which one to choose? This is where you need to think about your hobbies and interests.

If you are full of energy like a true dynamo then your school's Sports Club or football team are just for you!

Students who have a passion for music often join the school music band or choir. The Dance Club, however, can be good for both music addicts and dynamos.

The Art Club welcomes creative people. If you are also a chatterbox then the Journalism Club can be a better option – you need to use your imagination and communication skills there.

The Science Club, the Computer Club, the Drama Club... the list of extracurricular activities can go on and on. Just ask yourself what you are interested in. Are you a geek, a bookworm, a drama queen or someone else? When you answer these questions, you will find out which club is the best for you.

___ 1 Going to school only includes studying.

___ 2 Your club choice depends on your hobbies and interests.

___ 3 Joining the Sports Club, Dance Club or football team is good for dynamos.

___ 4 Students who love music often join the Computer Club.

___ 5 The Art Club is the best choice for chatterboxes.

___ 6 You need to be creative and sociable to join the Journalism Club.

___ 7 You will never know which club to join because there are too many of them.

Score: /14
