

6

Measurement, area and perimeter

› 6.1 Measurement

Exercise 6.1

Focus

1 a Write something that you can measure using each unit of length.

centimetre (cm) kilometre (km)
metre (m) rounding

Remember that 1 kilometre = 1000 metres
1 metre = 100 centimetres

Unit of length	What could you measure?
Kilometres (km)	
Metres (m)	
Centimetres (cm)	

b What could have these measurements? Make your answers different from the ones above.

1 kilometre _____

1 metre _____

1 centimetre _____

2 Use a ruler.

Estimate and then measure each of these lines in centimetres.

a 

estimate: _____ measure: _____

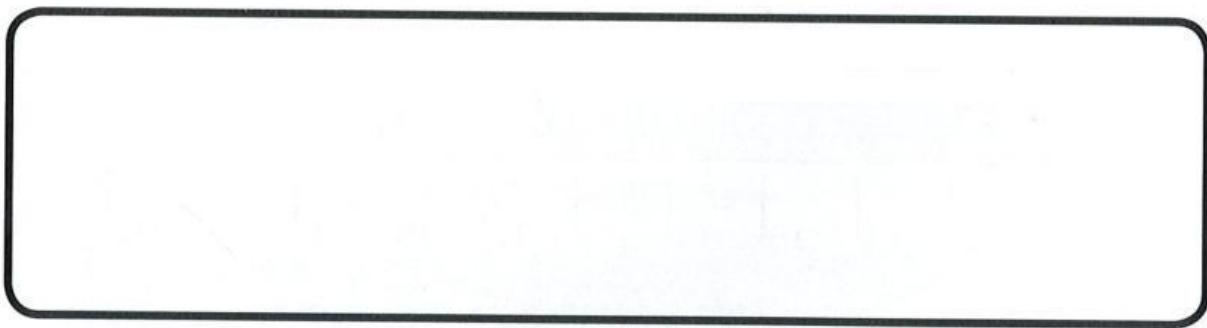

b 

estimate: _____ measure: _____

c 

estimate: _____ measure: _____

d Draw lines of lengths 2 cm, 5 cm and 7 cm. Label them.

3 Draw a ring around the correct answers.

a How many metres are in half a kilometre?

$$\frac{1}{2} \text{ kilometre} = 1000 \text{ m} \quad 500 \text{ m} \quad 10 \text{ m}$$

b How many metres in $\frac{1}{4}$ kilometre?

$$\frac{1}{4} \text{ km} = 25 \text{ m} \quad 250 \text{ m} \quad 750 \text{ m}$$

6 Measurement, area and perimeter

c How many centimetres in 1 metre?

$1\text{ m} =$ 10 cm 100 cm 1000 cm

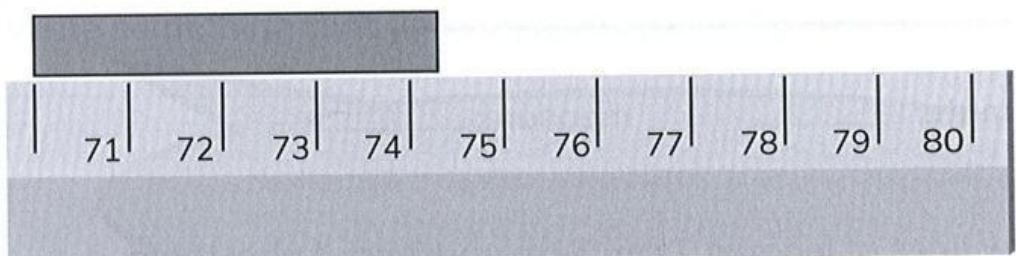

d How many metres in $\frac{3}{4}$ kilometre?

$\frac{3}{4}\text{ km} =$ 75 m 450 m 750 m

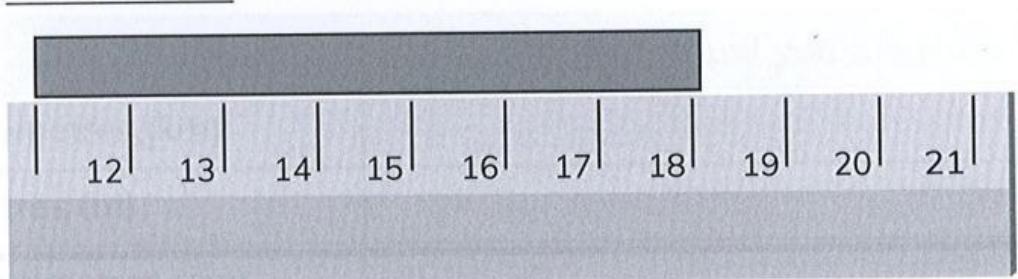

Show how you worked out the answer to part d.

4 Find the length of the objects, to the nearest centimetre.

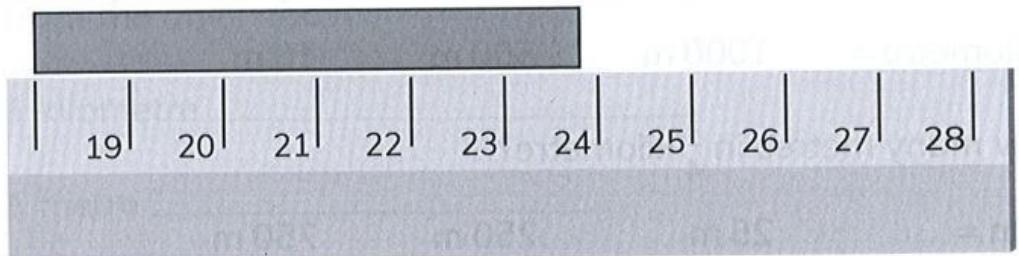

a

b

c

Practice

5 a Estimate the distance from your bedroom to the kitchen.

Will you use centimetres, metres or kilometres?

estimate: _____

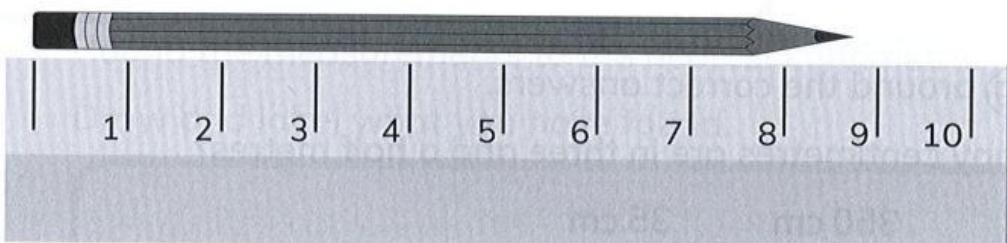

How could you find out what the length is?

b Estimate the distance from your house to the nearest shop.

Use either centimetres, metres or kilometres. Explain your choice.

6 Complete the sentence.

Round the answer to the nearest centimetre.

The length of the pencil is about ____ cm.

7 a Estimate then measure the height of each picture.

estimate: _____

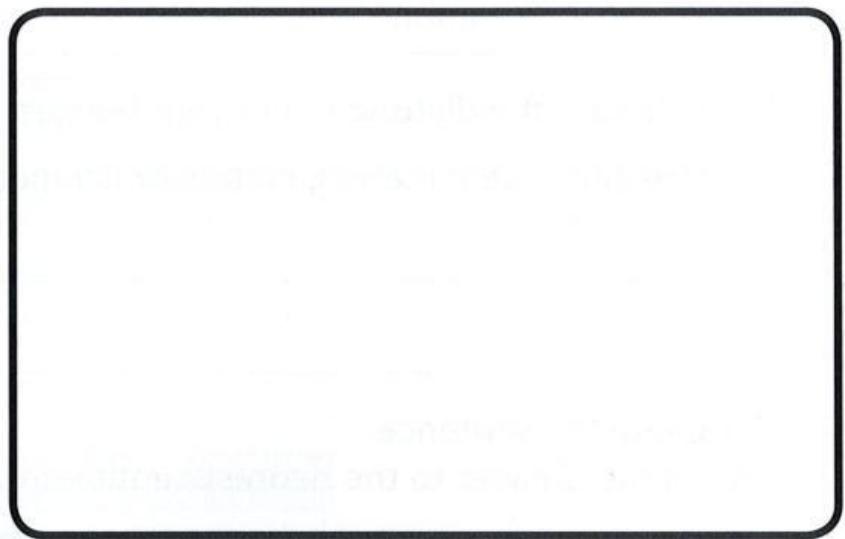

estimate: _____

measure: _____

measure: _____

b Draw and measure a person shorter than Arun.

8 Draw a **ring** around the correct answers.

a How many centimetres are in three and a half metres?

300 cm 350 cm 35 cm

b How many centimetres are in five and a quarter metres?

550 cm 575 cm 525 cm 500 cm

c $500 \text{ cm} = \underline{\hspace{1cm}} \text{ m}$

d $250 \text{ cm} = \underline{\hspace{1cm}} \text{ m}$

e Which is more: $\frac{3}{4} \text{ m}$ or 700 cm?
