1. Read the following text about the cheetah and the elephant.

THE CHEETAH AND THE ELEPHANT

The cheetah is a fascinating animal. It is a wild, carnivorous animal. Its yellow coat with black spots is very beautiful. The cheetah is the fastest animal in the world! It is faster than a lion and faster than a car. But it is less heavy than a lion. An adult cheetah is about 135 centimeters long, making it smaller than an elephant.

The elephant, on the other hand, is a very large, herbivorous animal. Its skin is gray and wrinkled. The elephant is the largest land animal. It is heavier than the cheetah and heavier than a giraffe. The elephant is as intelligent as a dolphin! However, the elephant is slower than the cheetah. Its ears are larger than the cheetah's ears.

Both are incredible animals, but the cheetah is more dangerous if you have to run from it, and the elephant is calmer.

2. Drag and drop.

The fastest animal

The tallest animal

The smallest animal

The heaviest animal

3. Fill the blanks according to the text.

- a. The cheetah's coat is yellow with _____ spots.
