4. _____ is the process by which certain characteristics are transmitted from parents to child. **Heredity, Intelligence, Socialization**
5. Your _____ is the total all physical and social conditions in your surrounds. **Esteem, Environment, Self**

B. Identify the following as either **Introvert** or **Extrovert** Personality type

1. Tina is sitting at home with nothing to do on a Saturday night when suddenly the phone rings. It's her best friend Amanda, saying that there is this awesome party that she just has to go to. She screams on the phone: "Of course I'm coming!" and gets into her coolest clothes still talking on the phone. _____
2. It is Christmas and Melanie's house is filled with people, all stuffing their faces with food or talking about random things to anybody. She sneaks off to her room when no one is looking and locks the door, pulling a book of the shelf on her way to her bed.

3. Everyone in Tommy's house has gone away for the weekend and he is alone. He calls up everyone he knows and plans a massive party. _____
4. There is a really good-looking boy that keeps noticing Tiffany. She immediately stands up and walks over to him, introducing herself with her most appealing smile.

5. Nelly sits at the back of every class by herself and only speaks when the teacher calls her name. At lunch time she quickly gets her food and goes behind the Office to eat away from all the other students. _____
