Exercise 1.
Instructions: Read the ads of sustainable homes for rent. Then, choose True or False.

Eco–friendly vacation homes in Mexico

Beach house in Tulum
It has two cozy bedrooms, one modern bathroom, a small kitchen, and a comfortable living room. In the living room, there is a big sofa, a table, and a TV. The kitchen has a fridge and a stove. Outside, there is a terrace with white chairs and a lovely ocean view. To reduce its energy consumption, there are solar panels on the roof and LED bulbs all around the house. It's a perfect place to relax with your family or friends.

Eco dome in Puerto Escondido
It has one cozy bedroom, a small kitchen, and a bathroom. In the bedroom, there is a comfortable bed and a bedside lamp. The bathroom has a simple shower and a dry toilet made of natural materials. The dome is eco-friendly because it uses rainwater from its roof and solar energy for its lights. It's made for people who love nature and quiet places.

Cabin in San Cristóbal de las Casas
In this cabin, there is a bedroom, a bathroom, and a living room. The bedroom has a bed and a closet. In the garden, there are green plants and tall trees. The cabin is eco-friendly because it uses an ecological waste system in its bathroom. It is perfect for people who want to enjoy nature and be sustainable.

Cottage in Xico, Veracruz.
This cottage is made of wood and clay, and it uses solar panels and rainwater for its energy and water supply. There is a kitchen, a living room, two bathrooms and two bright bedrooms with comfortable beds. Outside, there is a lovely garden with colorful flowers and tall trees. It's perfect for relaxing and enjoying nature.
