

# SCIENCE TEST REVIEW

## 1. Choose the correct word with the definition of matter.

1. Matter it is things we..... see

- a) can
- b) can't

2. Atoms join together to form....

- a) molecules
- b) environment
- c) particles

3. Matter is made up ..... called ATOMS

- a) states
- b) particles
- c) human body

## 2. Complete

MASS AMOUNT OBJECT SPACE SUBSTANCE

Matter has volume and .....

Mass is the..... of matter in an object.

Volume is the amount of ..... in an ..... or ..... occupies

**3. ¿What are the three states of matter?**

1.

2.

3.

**4. Choose the correct sentence about STATES OF MATTER:**

**Gass is.....**

- a) the plants and flowers that we plant**
- b) a variable volume and shape**
- c) a variable matter can we stand**

**Solid is.....**

- a) Have a fixed volume and beer**
- b) Have a fixed volume and shape**
- c) Has a fixed volume and shape**

**Liquid is....**

- a) Have a natural volume and shape**
- b) Have a fixed volume and variable shape**
- c) have a fixed shape and variable volume**

**5. Answer the questions**

**a) How many compositions of matter there are?**

---

**b) Whats are?**

---

---

**c) In which composition is it homogeneous and heterogeneous?**

---

**d) In which composition of matter we can't see the individual substances?**
