

Name: Class:

Science Fair Day

Last Wednesday, our school held an annual Science Fair in the main hall. Every class had to present their project that they had been preparing for weeks. In the morning, the students were very busy decorating their booths and setting up their experiments. Some students tested their volcano models, while others prepared posters and demonstrations.

At 9 o'clock, the principal officially opened the fair. Many parents and teachers visited the booths. They asked questions and gave compliments to students. My group presented a project about "Homemade Water Filter." We showed how to purify dirty water using charcoal and sand. Many visitors were amazed and took photos of our project.

After lunch, there was an award ceremony for the best projects. Our class didn't win, but we were happy because we learned a lot and enjoyed the day. It was a great experience that taught me how to work in a team and share knowledge with others.

Matching Activity - Structure Identification

Match each text excerpt to its function in the recount text. Write the correct letter (A-D) beside each number.

Structure Options:

A. Orientation B. Events C. Re-orientation D. Purpose/Function of the Part

Text Excerpt	Structure
"Last Wednesday, our school held an annual Science Fair in the main hall."	☐
"In the morning, the students were very busy decorating their booths..."	☐
"At 9 o'clock, the principal officially opened the fair."	☐
"My group presented a project about 'Homemade Water Filter.'"	☐
"After lunch, there was an award ceremony for the best projects."	☐
"It was a great experience that taught me how to work in a team."	☐
"Every class had to present their project that they had been preparing for weeks."	☐
