

Name: _____

Date: _____

Subject: Health & Family Life

Topic: Prevention, Treatment, and Caring for Persons with HIV and AIDS

Prevention of HIV and AIDS

Make choices that keep you healthy.

- ❖ Abstain from sex until you are an adult or married.
- ❖ Never use drugs. They impair your judgment.
- ❖ Have one faithful sexual partner.

Treatment of HIV and AIDS:

To date, there is no cure for HIV.

Scientists have developed drugs to treat HIV infection. Drug treatment improves the survival time for patients.

Caring for Persons Affected with HIV and AIDS

- ❖ People who are HIV positive should be treated like everyone else, with respect and dignity.
- ❖ Get factual information about the disease.
- ❖ Show kindness, love and support for persons living with and affected by HIV and AIDS.
- ❖ Do not spread gossip or discriminate against them.
