It can't be denied that teenagers are completely hooked on technology. In my opinion, technology has some positive effects for them.

Firstly, using gadgets or other devices makes life more enjoyable. Media devices such as mobile phones and laptops allow access to information and entertainment and make communication easier and faster. Of course, they need internet.

Secondly, technology is a valuable resource that has allowed teens to learn new skills. For example, they can cook by watching videos on YouTube or TikTok. They can also do their homework with the help of internet.

To sum up, teenagers' use of gadgets and other devices can enrich their daily experiences in many ways. Due to technology advances, I think teenagers will be well-prepared for the future.

8. What is the topic of the text above?

Many people use plastic bags when they want to buy something in traditional markets or grocery store. People who care deeply about environment will tell you that plastic bags have negative impacts to our planet.

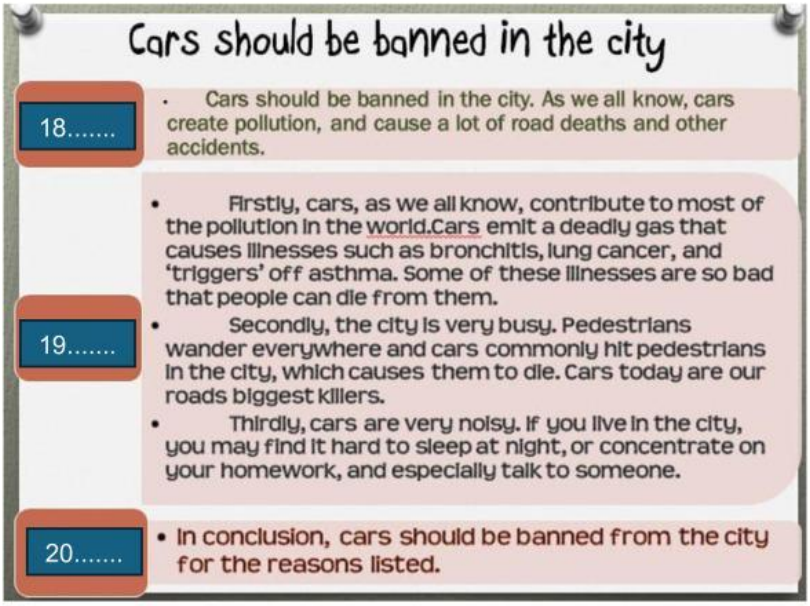

Plastic bags are not biodegradable. It can take thousands of years to biodegrade. This means plastic bags that gets thrown away will stick around for many generations. Over the next ten years, the amount of marine plastic waste will double and if we do not act, in 2050 the oceans will contain more plastic waste than fish by weight.

It is probably impossible to totally eliminate plastic from our lives, but we should reduce the amount of plastic we use. For example, at the grocery store, we can bring our own reusable shopping bag.

13. What is the topic of the text above?
    a. The use of plastic bags.
    b. How to transport things.
    c. The negative effects of plastic bags.
    d. How to eliminate plastic bags.
    e. The solution of plastic bags

    a. They are reusable.
    b. They are not biodegradable.
    c. They are good for environment.
    d. They are durable.
    e. They are suitable for transporting things.
15. What does it mean that plastic bags are not biodegradable?
    a. They dissolve in water
    b. They can be recycled easily
    c. They break down quickly
    d. They cannot decompose naturally
    e. They are made from plants
16. What could happen by 2050 if no action is taken?
    a. Oceans will be cleaner
    b. Fish will outnumber plastic
    c. Plastic will be banned
    d. Oceans will contain more plastic than fish by weight
    e. Plastic will be biodegradable
17. The recommendation of the text is...
    a. We should reduce the use of plastic bag.
    b. We should burn plastic bags.
    c. We shouldn't consume seafood.
    d. We shouldn't throw plastic bags.
    e. We should save plastic bags in a safe place.
