My College Life at LP3I Jakarta

I am a college student at LP3I Jakarta, and I really enjoy my life here. LP3I is a modern and practical college that focuses on preparing students for the world of work. The campus has comfortable classrooms, computer labs, and a library where students can study and do their assignments. My class starts at 8:00 a.m. every day, and I usually arrive early to review my notes before the lecture begins.

I study business administration, English for communication, and computer applications. The lecturers are friendly and always encourage us to be confident and creative. We often work in groups to make presentations or solve real business problems. After class, I like to spend time in the student lounge or join extracurricular activities such as the English Club and Entrepreneurship Club.

On Fridays, we usually have a career development session where professionals share their experiences and give advice about the workplace.
