**Task 2: Read and write T/F**

A weekend trip turned into an unexpected adventure for two friends, Minh and Lan. They joined a small boat tour to visit the stunning islands near Nha Trang. At first, the weather was calm, and the captain told everyone interesting stories about sea animals. Minh and Lan sat at the front of the boat and enjoyed the fresh air.

However, things suddenly changed. Dark clouds started to appear, and the waves became bigger. Soon, the weather turned awful. Water began entering the boat, and the captain shouted, "Put on your life jackets!" Everyone stayed calm and followed his instructions.

A strong wave hit the boat, and Minh fell into the sea. Lan immediately jumped in after him. They tried to stay together while waiting for help. After about twenty minutes, a rescue boat arrived and was able to rescue both of them. Minh was very tired, but he managed to survive the accident.

Later at the hospital, the doctor told them that it was astonishing that Minh had no serious injuries. Lan said the experience was tragic but also taught them to respect the power of nature.
