

Theme: Environmental Problems

Class: 9

Name: _____ **Surname:** _____

Part 1: Pre-Class Study

Before completing this worksheet, please study the following resources to gain understanding of the topic:

Video: *Environmental Problems and Solutions*

(Link: <https://yandex.ru/video/touch/preview/6906438816757183925>)

Watch the video carefully and take notes on the main environmental issues and possible solutions discussed.

Part 2: Worksheet Tasks

Note: This worksheet is designed to reinforce students' understanding of vocabulary related to environmental issues.

There are six types of tasks: open-ended question, short answer, drag-and-drop, matching, choosing the correct word/phrase, and multiple choice (with one or more correct answers).

1. Open-ended question

What do you think is the most serious environmental problem discussed in the video? Why?

2. Short answer

What can individuals do to help reduce pollution?

Answer: _____

3. Drag-and-drop (fill in the gaps)

Use the words below to complete the sentences:

recycling, pollution, deforestation, global warming, endangered species

1. Air _____ is one of the major causes of climate problems.
2. Cutting down trees leads to _____.

3. To protect nature, we must practice _____.
 4. Animals such as tigers and pandas are _____.
 5. Melting ice caps are a result of _____.
-

4. Matching

Match the problem with the correct solution.

Problems	Solutions
Air pollution	Plant more trees and use public transport
Water pollution	Avoid dumping chemicals and waste into rivers
Plastic waste	Recycle and use reusable bags
Deforestation	Create protected areas and replant trees

5. Choose the correct word or phrase

1. The Earth's climate is changing because of (global warming / global warning).
 2. To protect the environment, people should (reuse / refuse) plastic bottles.
 3. Cutting down forests causes (pollution / deforestation).
 4. We should (turn off / turn on) the lights when we leave the room.
-

6. Multiple choice (one correct answer)

Which gas is responsible for global warming?

- a) Oxygen
 - b) Carbon dioxide
 - c) Hydrogen
 - d) Nitrogen
-

7. Multiple choice (several correct answers)

Which actions are environmentally friendly?

- Recycling paper and glass
 - Leaving lights on all day
 - Using bicycles instead of cars
 - Planting trees
 - Throwing rubbish into rivers
-
