E-Safety

Protection against cybersecurity issues

Part A.

It's important to make sure your password is strong.

- A strong password has:
- 6 characters or more.
- letters.
- numbers.
- 1 capital letter or more.
- symbols (@, _, #, $, %, -, /).

Look at the passwords below.

Which ones are strong? Which ones are weak?

Passwords	Strong	Weak
Cats%run8912		
Pretty20		
Flowers		
pink-Rabit75		
spiderman		

Part B.

Using what you've learnt, create a strong password. _____
