

Tin doll

Tin doll

My tin doll hit her **head** on the ground,
It took more than one hour to do all the repairs,
Smooth it out here, and make her right again

My tin doll hit her **bottom** on the ground,
It took more than two hours to do all the repairs,
Smooth it out here, and make her right again

My tin doll hit her **belly** on the ground,
It took more than three hours to do all the repairs,
Smooth it out here, and make her right again

My tin doll hit her **nose** on the ground,
It took more than four hours to do all the repairs,
Smooth it out here, and make her right again

My tin doll hit her **knee** on the ground,
It took more than five hours to do all the repairs,
Smooth it out here, and make her right again
