

A cycling Trip

: WRITE a WH Question - Use one of the following Wh questions (5W1H)(**What, Where, How, Why, When, Who**)
Then complete the Questions using a Wh question.

How did you go to the beach to the beach? was the weather ? did you wake up ? did you bring along for the trip?	Last weekend, my friend and I rode our bicycles to the beach. It was a lovely day First, we woke up at 6 a.m. and had breakfast. Before we set off , we packed our bikes with sandwiches and orange juice.
.....did you see along the way ? did you do next?	We saw many goats along the way. We got off our bikes to let the goats cross the road.
.....did you help the man?	Later we reached a busy street in the city and saw many traffic lights We even saw a road accident. A man wast hit by a car. He lay unconscious. My friend and I quickly ran to help.We called an ambulance. Minutes later an ambulance with paramedics came. They transported him to the nearest hospital.

..... did you do at the beach ?	Soon we arrived at a sandy beach to relax. We walked along the sun kissed shore and swam in the emerald sea. Later we sat in the shade of a coconut tree, sitting in the shadows, and smelling the salty breeze.
..... did you get home? caused the puncture ? is the characteristic of a good friend ?	At 5p.m., my friend and I cycled home. Alas, my friend had a punctured tyre while cycling. I got down and helped. Broken glass had punctured my friends bicycle tyre. Soon we were on our way again to the village The clock struck 8 p.m. when we arrived home. I was very thankful for my friend had helped me change the tube. The lesson I learnt was good friends stick with us in good times and bad times..
