10. I was walking to school \_\_\_ I saw a cat in a tree.  
a) because            b) while            c) when

### READING COMPREHENSION

I. Read the article and answer the questions.

#### **My Opinion About Learning English**

Last year, I decided to improve my English because I wanted to travel abroad. I think learning a language takes time, but it is worth it. When I started my first English course, I felt very nervous. While the teacher was explaining the rules, I was trying to write everything in my notebook. I also practiced every day after school. One afternoon, while I was studying at home, my friend called me and invited me to join an online English club. I accepted, and we met every week. With time, I became more confident. When the course ended, I felt proud of my progress and I believed that I could continue learning even more.

- |  |   |   |
|--|---|---|
| 1. The writer wanted to improve English because they planned to travel abroad. | T | F |
| 2. Laura heard a loud noise when she was waking up.                            | T | F |
