

CENTRO DE EDUCACION BASICA NO GUBERNAMENTAL
BILINGUE "ACADEMIA CRISTIANA CANAAN"

Reading II Bimester
4th Grade

Student's Name: _____ Date: _____ Score: _____

A. Write the correct vocabulary word. (1 pt. e/o -5 pts)

luminous - transparent - reflect - illuminates - judge

1. _____ To bounce light off a surface.
2. _____ Something that gives off light.
3. _____ To estimate or guess the amount or size of something.
4. _____ Easy to see through.
5. _____ To brighten an area by giving off light.

B. Read the following questions and circle the correct answer. (2 pt. e/o -10 pts)

1 How do the lenses in glasses work?

- Ⓐ They turn images upside down so the brain has to do less work.
- Ⓑ They bend light to focus it on the right spot on the retina.
- Ⓒ They help the eye to see what is moving on all sides.
- Ⓓ They let more light into the pupil.

2 How does the author support the idea that sight is an important sense?

- Ⓐ by listing the different tasks sight helps with
- Ⓑ by explaining that people need light to see
- Ⓒ by stating the names of all of the senses, including sight
- Ⓓ by sharing that people can see objects that give off light

3 The passage states that some materials reflect light. What does reflect mean?

- Ⓐ to use up
- Ⓑ to bounce back
- Ⓒ to make bigger
- Ⓓ to bring into being

4 What causes the pupil to become smaller?

- Ⓐ blinking the eye
- Ⓑ being in a place that is dark
- Ⓒ putting bright light into the eye
- Ⓓ looking at an object that is far away

5. The author states that animals with eyes at the sides of their heads cannot tell how far away something is. Why does the author state this?

- Ⓐ to explain why most animals that hunt have eyes in the front
- Ⓑ to explain why it is good for an animal to be able to see behind it
- Ⓒ to support the idea that some animals see things differently than people do
- Ⓓ to support the idea that the body parts of different animals perform special jobs

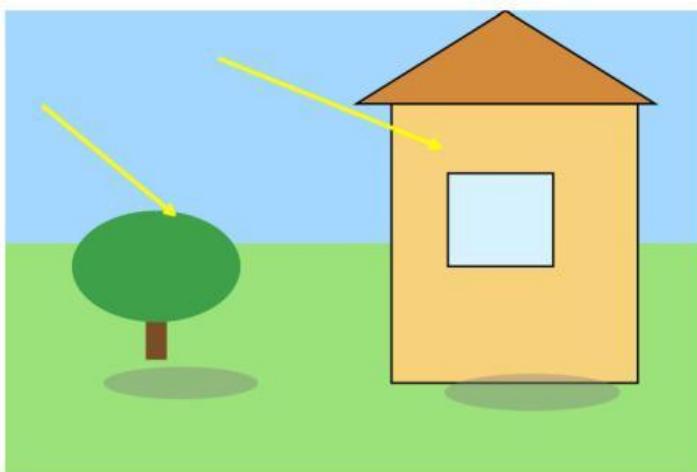

C. Write **B** for Boldface, **I** for Italics, **C** for Capital Letters, **H** for Heading, and **S** for Subheading. (1 pt. e/o -5 pts)

1. **ANIMALS OF THE RAINFOREST**
2. *The frog is small and green.*
3. **important vocabulary words**
4. **MY FAVORITE FOODS**
5. **Reptiles of Central America**

D. Write **T** for True and **F** for False. (1 pt. e/o -5 pts)

1. **True** We need light to be able to see objects.
2. **True** The eye sends messages to the brain using the optic nerve.
3. **True** The pupil becomes larger when there is a lot of bright light.
4. **False** Mirrors reflect light back to the eyes.
5. **True** The retina helps the brain understand colors and shapes.

E. Look at the picture. Then write **LIGHT** or **SHADOW** for each item.

1. **LIGHT** The sunlight hitting the window
2. **SHADOW** The dark area behind the tree
3. **LIGHT** The sunlight on the grass
4. **SHADOW** The dark shape under the bench
5. **LIGHT** The bright area on the sidewalk
