

End of the year exam school of english 2025

Name: _____

1-Read.Write true or false.

Read the following passage and decide whether the sentences below it are true (T) or false (F).

The first story of the Loch Ness monster is in a text written in the year 565 AD by a Celtic writer. He describes how a man was attacked by a monster while he was swimming in the river Ness.

However, the story of the monster was not very well-known in England because Loch Ness is a very long way from the rest of Britain. Before the railway was built, no one else had any reason to go there. The North of Scotland was wild and desolate, wet and generally cold, and with more sheep than people.

In 1930, three men in a boat on the lake said that they had seen a monster. Immediately, other people said that they had seen one too. In 1933, a man took the first "photo" of the monster, from a distance of about 100 metres. The photo was not clear, but Kodak said that the photo was real. The most famous photo of all was taken in 1934 by a London doctor; it seems to show a long neck and a small head sticking up out of the water. "Nessie" looks something like a dinosaur.

A lot of other photos have been taken since then, but none of them have been clear. Obviously, if there is a monster, it is a shy one! It doesn't often come to the surface, and never comes near the shore on a sunny summer afternoon!
