

PLACEMENT TEST
Global Prestasi School
Primary
Academic Year 2025-2026

Subject	: Science	TS	Score
Day, Date	: _____, _____		
Duration	: 60 minutes		
Name	: _____	PS	
Grade/No	: ____ / _____		

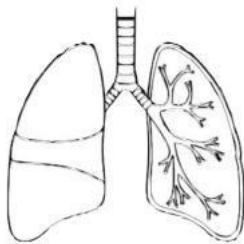

I. Color the correct objects. (2 points)

1. Look at the pictures below. Color the mammal **blue**, the reptile **red**, the insect **green**, and the amphibian **yellow**.

II. Tick the letter of the correct answer. (2 points)

2. What organ is shown below?

- A. lungs
- B. heart
- C. intestines
- D. liver

3. Which of the following statements about the brain is **NOT** correct?

- A. It controls our thoughts and actions.
- B. It helps us remember and learn new things.
- C. It pumps blood around the body.
- D. It helps controlling our body parts

III. Answer the questions correctly. (4 points)

4. How is a shadow made?

5. Why are sunglasses called translucent materials?

IV. Tick the letter of the correct answer. (1 points)

6. Which of the following refers to missing completely with a liquid until it cannot be seen anymore?

- A. dissolve
- B. soluble
- C. mixture
- D. insoluble

V. Answer the questions correctly. (4 points)

7. The solid that is **left behind** after filtering or sieving a mixture is a _____
8. Look at the picture below. Is it a mixture? Explain why you think so.

VI. Circle T if the sentence is true or F if the sentence is false. (2 points)

9. Roots hold the plant parts up and transport water. (T) or (F)
10. Plastic building blocks are not alive because they can grow. (T) or (F)

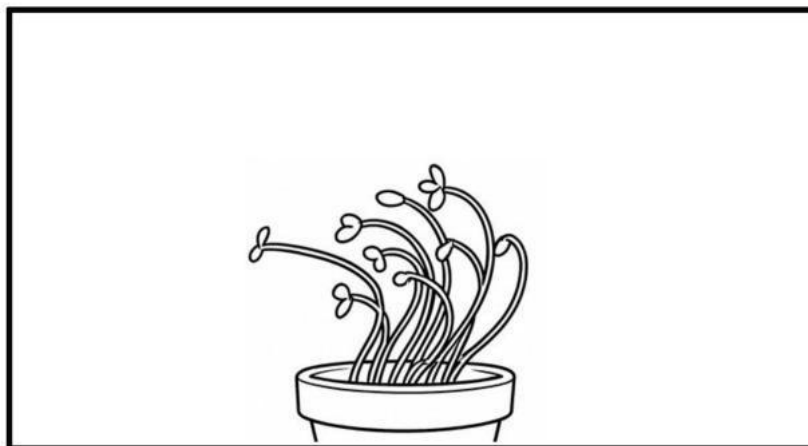

VII. Circle the correct answer. (2 points)

11. Glasses and goggles help us to see clearly. They are made from **transparent/translucent** materials.
12. Based on the picture, the shadow is **big/small** when the object is **far/close** from the light source.

VIII. Draw the object correctly. (1 points)

13. Draw the correct position of the light source based on the bending plant picture below.

IX. Label the steps in correct order. (2 points)

14. Write number 1 on the blank for the first step, 2 for the second, and so on.

Shake the sieve gently.

Step__

Small pieces fall through, big pieces stay on the sieve

Step__

Put the mixture on the sieve.

Step__

Hold the sieve over a container.

Step__

X. Tick the letter of the correct answer. (2 points)

15. Why do clothing stores in malls always use **transparent** glass?

- A. To make the store look more attractive and modern to customers.
- B. Because transparent glass is cheaper than other materials.
- C. So people can see the clothes inside the store easily.
- D. Because transparent material is stronger than other materials

16. What can we conclude from the experiment results in the table below?

Test number	Distance from light source (cm)	Size of shadow (cm)
1	50	6
2	40	14
3	30	25
4	20	34
5	10	42

- A. The shadow becomes bigger when the object is closer to the light source.
- B. The distance doesn't affect the shadow's size.
- C. The size of the shadow stays the same at all distances.
- D. The shadow becomes smaller when the object is closer to the light source.

XI. Rearrange and write the word to form the correct answer. (2 points)

x e y o n g

17. Plants produce a gas called _____

18. Look at the table below.

	Yellow or brown leaves
	Not standing straight
	Holes or spots on the leaves

h u n t e a l h y

Those are the conditions of a plant that is _____

XII. Write your answer correctly. (6 points)

19. Write about three body organs you know and their main function.

_____ = _____

_____ = _____

_____ = _____

20. Draw and explain food chain with one producer, and two consumers.

Food chain explanation:
