III. Read the following passage and answer the questions below.

Would you like a robot in your house? It is now generally accepted that in the future robots will take over many of our tasks, especially jobs of a repetitive nature. But it is doubtful if robots will ever be able to do many of the more creative types of work - or indeed if people would want them to. At the home robots would probably be used to do the cleaning, table laying, scrubbing and washing up, but it is considered unlikely so far that they will be used to do cooking - at least not in the near future. Robots in the home might not be creative enough to do the cooking, plan the meals, and so on. They

would be used as slaves, thereby freeing people to do more of the things they wanted.

1. What kinds of jobs would a robot take over?

.....

2. What are the types of creative jobs?

.....

3. Can robots do creative work? Why? (Why not?)

.....

4. What would people use robots for?

.....

5. Would you like a robot in your house? Why? (Why not?)
