

ENGLISH 5

UNIT 7

Read the text

Are the sentences TRUE or FALSE

The information age

In the Information Age, technology is changing how people communicate. New digital tools are being created every year to make life easier. Recently, personal data has been shared across many platforms, and online privacy has become a major concern.

At the same time, online education has been expanded, and university courses are being offered to students around the world. In the future, even more information will be stored online, and new technologies are going to be introduced to improve communication.

- | | TRUE | FALSE |
|--|--------------------------|--------------------------|
