KET PART 2 - 7 questions
School boat festival

Elena

Our class heard about the school boat festival in our science class. Our teacher explained that we had to make several different boats so we could learn what makes boats float on water. First, my group made a sailing boat, but when we sailed it in the school swimming pool, it sank because there were holes in the wood! So, we decided to make a boat from old plastic bottles and that didn't sink under the water!

Astrid

The boats our class built for the school boat festival were amazing. Our technology teacher showed us a video about how boats and ships are built. Then she told us to make a model of a ship using wood, plastic and metal. After that, we had to make a short film that explained how we made our model of a ship. Then we took our models to the local park and sailed them on the lake.

Kumiko

We were really excited and stopped talking when the headteacher told us about the school boat festival at our whole school morning meeting. We decided to make a model of a Viking long boat and give it to our English teacher because her husband is Danish and she's leaving at the end of the school year to go and work in his country. We didn't want to sail it on the river in case it sank!

KET PART 2 - 7 questions

For each question, choose the correct answer.

Jobs we'd like to do

Artur

I've always enjoyed playing computer games and I'd like to make them when I'm older. My cousin works in IT and makes cartoons and games, and he helped me learn how to draw a simple cartoon when I went to work with him. I learned so much that day. After working all day, I was very tired and just wanted to rest, not play computer games!

Mika

I love sport the most and want to teach it when I'm older. I'm good at basketball, but I need to get better at rugby, so I can teach different sports. After school, I want to go to college and study sports science. My uncle is a teacher, and I'm going to ask him for help with my future job plans next week.

Henri

I play a lot of musical instruments including the piano and guitar and would love to have a career in music. Last year, I won a competition for the best young musician in my town. I want to study music at university. I might have to work as a waiter after school, but my dream is to be paid to play in a group and travel around the world.
