Anna

Good morning, everyone! My favourite device is my tablet. I can play games, watch films, read books or make video calls with my grandparents. What I love most about it is its excellent camera. I am happy with all the pictures I take using it. My dad installed many useful apps onto my tablet when he bought it from the store. I usually use the English learning app. I can learn many new words and practise my pronunciation every day! I love using my tablet, but my mum says I shouldn't use it much because it's not good for my eyes.

John

It sounds like a good tablet, Anna! As for me, I love my smartphone. I can call my friends or send them messages. It's a great way to listen to music or watch videos online. I also downloaded some apps onto it, but it can't store much. It's got only 32 gigabytes of memory, so I must delete some files when I want to save pictures or download more apps. I hope to have a new one with larger memory next year.
