I [7] **'ve got back / got back** from a school trip a couple of days ago, and there was a note on the fridge, 'Welcome home! Help yourself to food.' I opened the fridge and [8] **'ve found / found** a plate of curry. It looked delicious but it [9] **hasn't tasted / didn't taste** great. That evening my mum asked me, '[10] **Have you seen / Did you see** the plate of food for the cat?'. 'I think I [11] **'ve eaten / ate** it! I don't feel well', I replied.

How long [12] **have you lived / did you live** here? And you [13] **haven't had / didn't have** stinky tofu! OK, it smells disgusting, but it tastes amazing and it's really good for your stomach! You mix milk, meat, vegetables and other ingredients together and then leave them in salty water for several months. I [14] **'ve eaten / ate** it fried in a spicy sauce. You have to get it in a street market though, because it's too smelly to serve in a restaurant!
