My Free Time and Hobbies

In my free time, I like to do different activities. After school, I usually do my homework and then I relax. I often listen to music because it helps me feel calm.

On weekdays, I don't have much free time, but on weekends I enjoy my hobbies more. I like playing soccer with my friends and watching movies with my family. Sometimes, I read books or use my phone to watch short videos.

Hobbies are important because they help us relax and feel happy. When we enjoy our free time, we feel more motivated and ready to study again.
