- ____ 40. I _____ to Kenya, but I'd love to go.
a. have never been b. never went c. have never been going

Read. Choose T (True) or F (False).

Competitive sport

Why is sport so important for young people? Well, we know that youngsters are full of energy and that they are eager to jump, run and play. Putting all that energy into competitive sport can help to keep children active and healthy as they grow into teenagers, and can also reduce the chance that they may become involved in negative activities. Competitive sports such as football, athletics, swimming and basketball can also help children learn important life lessons.

One important thing about sport is that it helps prevent children from becoming overweight, or obese. The obesity epidemic in many parts of the world is a real problem, and diseases such as diabetes have become more common, even among young people. Participating in competitive sports helps children to burn calories and helps to prevent obesity. Additionally, many teenagers who are active in sports are motivated to move away from the fries and pizza, and eat healthier foods, such as fruit and vegetables.

There is also evidence that children who take part in sport have improved self-esteem. It's natural that you will feel better about yourself if you are fit and healthy. Being in a team and working with others towards a common goal increases your sense of responsibility, helps you to get on better with others, and creates a feeling of positivity overall. Whether you win or lose, you are a team.

Lastly, there are valuable life lessons to be learned from sport. Sometimes you work hard, and you still lose. Sometimes you win but still didn't play well. In these moments we learn how to bounce back, and we learn determination. These qualities are certainly essential as we become adults and enter the competitive world of work.

- ____ 41. Basketball is a competitive sport.
- ____ 42. If you don't do sport, you may become overweight.
- ____ 43. If you do sport, you will eat more pizza.
- ____ 44. Being in a team makes you feel good.
- ____ 45. Participating in competitive sport is only good for a person's physical condition.

Read the text. Choose the correct answer.

Read. Choose T (True) or F (False).

Slow Food is an organisation that promotes local food and traditional cooking. It was founded by Carlo Petrini in Italy in 1986, in response to a fast food restaurant opening in Rome.

Petrini's idea when he started the organisation was to prevent the disappearance of local food cultures and traditions, and to counteract the rise of fast life. He also wanted to encourage people to be interested in the food they eat, where it comes from and how our food choices affect the world around us. When he was interviewed in 2003, Petrini said, 'In my grandfather's day, 60% of his weekly wages went on food for the family. Today, Italians spend 40% of their wages on food, and 10% on their mobile phone bill. My message is talk less and eat better, and that way our lives will be richer.'

Since its beginnings in Italy, Slow Food has grown into a global movement involving millions of people in over 160 countries, working to ensure everyone has access to a well-balanced diet with good, fresh, healthy food.

People in the Slow Food movement believe that food is related to many other aspects of life, including culture, politics, farming and the environment. Through our food choices, it says, we can collectively influence how food is grown, produced and distributed, and change the world as a result.

According to the Slow Food movement's website, its approach is based on a concept of food that is defined by three interconnected principles: good, clean and fair. The Slow Food movement is both strong and widespread, and it is planning to become even stronger over the next ten years.

___ 115. The Slow Food movement started in Italy.

___ 116. It was started because a new restaurant opened in Milan.

- ____ 117. These days, the movement exists in many countries.
- ____ 118. In the present day, Italians spend 40% of the money they earn on their mobile phone.
- ____ 119. Slow Food promotes food which is grown locally.

Read the text. Complete each sentence with the correct word from the list.

answer farming idea salary worldwide

Slow Food is an organisation that promotes local food and traditional cooking. It was founded by Carlo Petrini in Italy in 1986, in response to a fast food restaurant opening in Rome.

Petrini's idea in starting the organisation was to prevent the disappearance of local food cultures and traditions and counteract the rise of fast life.
