

Exercise 5 Complete these sentences by adding the missing words.

- a $\frac{4}{8}$ is an example of quadruple time.
- b $\frac{9}{16}$ is an example of compound time.
- c $\frac{6}{4}$ is an example of compound time.
- d $\frac{6}{16}$ is an example of compound time.
- e $\frac{3}{2}$ is an example of simple time.

Remember!

- **Duple time** has 2 beats in each bar
- **Triple time** has 3 beats in each bar
- **Quadruple time** has 4 beats in each bar
