REMEMBERING ACTIVE AND PASSIVE VOICE

An **active** sentence like **"THE STUDENTS STUDY ENGLISH EVERY DAY"** has the subject first (the person or thing that does the action) followed by the verb (action), and finally the object (the person or thing that receives the action).

The students	study	English	every day.
Subject Doer of the action	Action	Receiver of action	

But we don't always need to make sentences this way. We might want to give importance to the RECEIVER OF THE ACTION, or we don't know who or what did the action. In this case, we can use **passive voice**.

English	is studied	by the students	every day.
Receiver of action	Action in passive voice	Doer of the action
