

INGLÉS TÉCNICO: MANTENIMIENTO ELECTROMECÁNICO

Precisión Gramatical para Operaciones Industriales

SYS_BOOT_V.1.0 // INITIALIZING...

LIVEWORKSHEETS
FOR NOTEBOOKS

LA PRECISIÓN ES CRÍTICA

Un tornillo flojo causa vibraciones mecánicas.

DATA
ALERT

```
FUNCTION: OPERATIONAL_CHECK(STATUS);  
IF STATUS = 'ERROR' THEN  
  ABORT_SEQUENCE;  
ELSE  
  CONTINUE;  
END_IF;  
//INCORRECT VERB TENSE DETECTED.
```

Un tiempo verbal incorrecto causa errores operativos.

Syntax
Error

El lenguaje es una herramienta. Úsala con exactitud.

MÓDULO 1: MANTENIMIENTO RUTINARIO (CHECKLIST)

INSTRUCCIÓN: Selecciona la opción correcta para hábitos y frecuencias.

1. The technicians
[inspect / inspects] the
bearings [every shift /
last shift].

2. The maintenance team
[does / do not check /
checks] the oil level
[daily / yesterday].

3. Our supervisor always
[lubricate / lubricates]
the gears before [starting /
started] the machine.

4. [Does / Do] the new
apprentice [tighten /
tightens] the bolts
correctly every morning?

MÓDULO 2: REPORTE DE INCIDENCIAS (LOGBOOK)

INSTRUCCIÓN: Documentar fallos y reparaciones pasadas.

ENTRY 01: The electric motor
[didn't / doesn't] [overheats
/ overheated] last week.

ENTRY 02: The mechanics [did /
does not replace / replaces]
the faulty valve [yesterday /
every day].

ENTRY 03: Yesterday the senior
technician [troubleshoot /
troubleshoot / troubleshoots] the
overheating problem.

ENTRY 04: [Did / Does] the
preventive maintenance team
[finish / finishes] the
checklist last Friday?

MÓDULO 3: DIAGNÓSTICO DE SISTEMAS (HMI)

INSTRUCCIÓN: Definir comportamiento operativo normal y fallos.

PUMP STATUS

The pump [don't / doesn't] [fail / fails] during normal operation.

BREAKER LOAD

The circuit breaker [don't / doesn't] [trip / trips] when the load is normal.

CONVEYOR VELOCITY

The conveyor belt [does / do not move / moves] smoothly when the rollers [is / are] worn.

PLC ALARMS

The PLC system rarely [send / sends] false alarms during normal production.

MÓDULO 4: PROTOCOLOS DE SEGURIDAD

INSTRUCCIÓN: Normas universales y verdades generales.

1. The company
[hardly ever /
buys / buy /
bought] new
multimeters
regularly.

2. The safety
glasses
[protect /
protects] the
eyes, but the
hard hat
[protect /
protects] the
head.

3. My colleague
seldom
[forget /
forgets] to
[lock /
locked] the
tool cabinet.

4. [Is / Are]
the emergency
stop button
[work / works]
properly every
time?

Verbos con 'S' / Doesn't

SYSTEM
OK

INCIDENCIAS

Eventos pasados ->
Past Simple

SEGURIDAD

Verdades generales ->
Siempre Presente

MANTÉN EL ESTÁNDAR

La precisión técnica requiere precisión gramatical.
Asegúrate de que tu reporte sea tan fiable como tu reparación.
