4 There are six mistakes in the email. The first one is given. Find, circle and correct the other five.

Hi, Cesc

Thanks for your email. The experiment sounds great!

We've got a new teacher for Chemistry. Our last teacher leaves after a huge explosion in his laboratory. Our new teacher is called Miss Calvo. We have our first lesson with her last week. It is really interesting. She tells us her ideas. She said, 'Chemistry is the science of change.' Then she give us some instructions for next week. Our homework is to read through them and think about them. We're going to do our first experiment in the next lesson!

By the way, I liked the photo you send me. You look really good in the goggles and apron!

I think I'd like to be a scientist too!
