Science 2023 B 10

1. PhotoStar is a new app for mobile phones. If you love taking every photos with
2. your phone but you think they are boring, you should actually to try this app.
3. PhotoStar is been designed to be used on photos on your mobile phone or tablet. It
4. allows you to how add funny features to your photos like animations and elements
5. like beards or funny ears. One of its best features which is that you can add voice
6. messages using the voice of someone such famous. So, you can send a funny photo
7. to your friend that has a few message with your favourite celebrity's voice. I
8. tried out all the different features and was sent some photos to my friends.
9. PhotoStar has no annoying adverts neither. It offers more features in the paid
10. version, which is very cheap. I have recommended it to all my friends themselves.
