- 2 Look at the vocabulary in **bold**. Discuss the meanings of these words.

## 4 Discuss.

Discuss the question with a partner.

How healthy do you think your lifestyle is?

A healthy **lifestyle** involves several things. It is important to have a **balanced diet**, which means eating a **healthy** mixture of different foods so that your body gets the energy and nutrients it needs. It is also important to **exercise** regularly and get enough sleep. We should avoid harmful habits like **smoking**, eating too much **junk food** or spending too much time sitting down. It is also really important to **relax** and look after our mental health. Our lives are very busy but we need to make time for activities that we enjoy and spend time with family and friends. When we do not do these things, we may get sick or feel **unwell**.
