

Multiplying and Dividing by Decimal Numbers

$45 \times 3 = \mathbf{135} \quad \text{so} \quad 4.5 \times 0.03 =$

$62 \times 4 = \mathbf{248} \quad \text{so} \quad 6.2 \times 0.4 =$

$78 \times 6 = \mathbf{468} \quad \text{so} \quad 78 \times 0.06 =$

$54 \times 8 = \mathbf{432} \quad \text{so} \quad 0.54 \times 0.08 =$

$39 \times 7 = \mathbf{273} \quad \text{so} \quad 3.9 \times 0.07 =$

$84 \times 5 = \mathbf{420} \quad \text{so} \quad 8.4 \times 0.5 =$

$96 \times 2 = \mathbf{192} \quad \text{so} \quad 9.6 \times 0.02 =$

$73 \times 9 = \mathbf{657} \quad \text{so} \quad 7.3 \times 0.9 =$

$28 \times 4 = \mathbf{112} \quad \text{so} \quad 28 \times 0.04 =$

$67 \times 3 = \mathbf{201} \quad \text{so} \quad 0.67 \times 0.3 =$

$58 \times 6 = \mathbf{348} \quad \text{so} \quad 58 \times 0.06 =$

$41 \times 8 = \mathbf{328} \quad \text{so} \quad 4.1 \times 0.8 =$

$92 \times 5 = \mathbf{460} \quad \text{so} \quad 9.2 \times 0.5 =$

$36 \times 7 = \mathbf{252} \quad \text{so} \quad 36 \times 0.07 =$

$74 \times 2 = \mathbf{148} \quad \text{so} \quad 7.4 \times 0.2 =$

$35 \div 0.5 \rightarrow \text{think} \quad \div \mathbf{5} =$

$1.2 \div 0.6 \rightarrow \text{think} \quad \mathbf{12} \div \mathbf{6} =$

$63 \div 0.1 \rightarrow \text{think} \quad \mathbf{630} \div \quad =$

$7.2 \div 0.01 \rightarrow \text{think} \quad \div \mathbf{1} =$

$5.4 \div 0.1 \rightarrow \text{think} \quad \mathbf{54} \div \quad =$

$= 1.6 \div 0.1 \rightarrow \text{think} \quad \div \mathbf{1} =$

$81 \div 0.9 \rightarrow \text{think} \quad \div \mathbf{9} =$

$$24 \div 0.6 \rightarrow \text{think } \mathbf{240} \div \quad =$$

$$0.14 \div 0.7 \rightarrow \text{think } \quad \div \mathbf{70} =$$

$$1.6 \div 0.4 \rightarrow \text{think } \mathbf{16} \div \quad =$$

$$50 \div 0.5 \rightarrow \text{think } \quad \div \mathbf{5} =$$

$$1.8 \div 0.9 \rightarrow \text{think } \mathbf{18} \div \quad =$$

$$16 \div 0.8 \rightarrow \text{think } \mathbf{160} \div \quad =$$

$$8.4 \div 0.2 \rightarrow \text{think } \quad \div \mathbf{2} =$$

$$9 \div 0.3 \rightarrow \text{think } \quad \div \mathbf{3} =$$
