

Name: _____

Class: _____

1. Read and complete the conversation below

What is the first month?

It's _____.

What is the _____

It's February.

What is the _____

It's March.

What is the fourth month?

It's _____.

What is the _____

It's May.

What is the sixth month?

It's _____.

What is the seventh month?

It's _____.

What is the _____

It's August.

What is the _____

It's September.

What is the tenth month?

It's _____.

What is the eleventh month?

It's _____.

What is the _____

It's December.

2. Read the text and answer the questions below.

MODE OF TRANSPORTATION

Traveling can be either affordable or costly. It often depends on how far you want to travel and the choice of your vehicle.

Using a bicycle will not cost anything because you power it by using your legs. However, the use of bicycle can be hard work and can take a lot of time to travel long distances. Cars and

motorcycles are faster modes of transport but they are more expensive to use because they need gasoline to work.

A train is another mode of transport which is ideal for

traveling long distances in the same country or among

different countries which are connected by land. A train

driver will stop at train stations to allow passengers to

board the train via a platform.

1. Which type of transport will not cost you anything?

2. What are some disadvantages of using bicycles?

3. Why are cars and motorcycles an expensive mode of transportation?

4. What is the best mode of transportation for traveling long distances?

5. In your opinion, what is the best mode of transportation? Give at least 3 reasons. Think about advantages and disadvantages.

What transport do you usually use to travel, go to work, go shopping,...?
