

TYPES OF TRIANGLES

INTERACTIVE WORKSHEET

Learning Outcomes:

- Students will identify different types of triangles.
- Students will classify triangles based on sides and angles.
- Students will differentiate between equilateral, isosceles, scalene, acute, right and obtuse triangles

Student details:

Name:

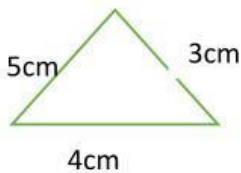

Class:

Date:

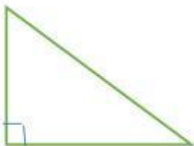

Activity

Instruction: Drag the correct name to each triangle

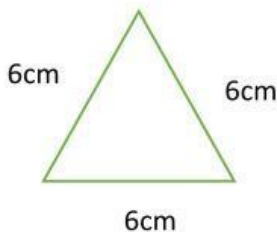

1.

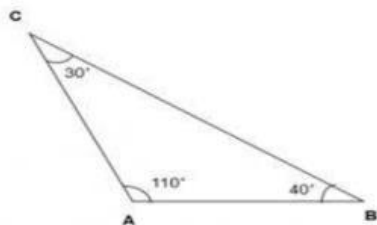

2.

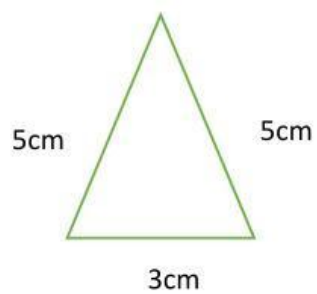

3.

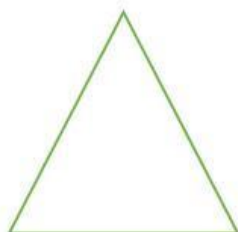

4.

5.

6.

Equilateral triangle

Scalene triangle

Isosceles triangle

Acute angled triangle

Right angled triangle

Obtuse angled triangle
