	المادة

المراجع		المقدر			المجموع
التوقيع	الاسم	التوقيع	الاسم		
				100	

Match the sentence to the correct picture.

Example: Earth is one planet in space.

1. The rocket goes up into space.

2. The island is in the ocean.

3. I use a tablet to draw.

4. Water falls down the waterfall.

5. The cave is dark inside.

/20

Many years ago, people did not have modern inventions. Life was hard in many ways. Today, inventions make our lives easier. The computer is an important invention. It helps people work, learn, and communicate. The phone is another useful invention. It allows people to talk to others far away. Many machines need electricity to work. Electricity may seem invisible, but it is very powerful. Scientists study how electricity works and find new ways to use it. Thanks to these inventions, people can save time and enjoy life instead of staying away from progress.

1	What is the text mainly about? A. animals B. inventions C. sports	4	What do many machines need to work? A. water B. food C. electricity
2	What does a computer help people do? A. sleep B. work and learn C. fly	5	Why are inventions important? A. They make life harder B. They make people tired C. They make life easier
3	What invention helps people talk to others far away? A. phone B. machine C. drone

Part 3 : Reading

Total 20 (4 marks each)

Buildings around the world show how people design and build in different ways. Long ago, people built the pyramids using large blocks of stone. These buildings were strong and have lasted for thousands of years. Today, cities have tall towers and modern skyscrapers. Builders now use metal and glass to make buildings higher and lighter. A skyscraper often has many floors. Every building begins with a careful design. Engineers think about shape, safety, and materials before they build. Old and new buildings are different, but both show human creativity.

1	<i>What is the text mainly about?</i> A. buildings B. books C. planets	4	<i>How are modern buildings different from old ones?</i> A. They are made only of stone B. They use metal and glass to build higher C. They have no design
2	<i>What material was mainly used to build the pyramids?</i> A. glass B. metal C. stone	5	<i>Why is design important before building?</i> A. To choose colors only B. To think about safety and materials C. To make buildings smaller
3	<i>Who plans the design of a building?</i> A. astronauts B. Engineers C. farmers

Part 4 : Writing

Total 40 marks

Write complete sentences for the pictures. Use the words in the circle to help you.

Ahmed bin
Majid
explorer

Marie Curie
scientist

**Alexander
Graham Bell
inventor**
