OPALITE

I have had a bad habit
Of missing lovers past pass
My brother use used to call it
'Eating out of the trash'
It's never gonna last fast
I thought my house was haunt haunted
I used to live with ghosts
And all old the perfect couples
Said, "When you know you know now."
And, "When Then you don't you don't."
And all of the foes and all of the friends
Have see seen it before, they'll see it again
Life is a song, it ends when it ends
I was wrong drunk

But my Mama told said me
It's alright
You was were dancing through the lightning strikes
Sleepless in the onyx light night
But know now the sky is opalite
Oh oh oh oh, oh my Lord

Never make made no one like you before
You have had to make your own sunshine
But now the sky is was opalite
Oh oh oh oh oh

You can't couldn't understand it
Why you feel felt alone
You was were in it for real
She was in her their phone
And you are were just a pose
And don't didn't we try to love love

We give gave it all we got (we give it all we got)
You finally leave left the table
And what a simple think thought
You're starving til you're not
And all of the foes and all of the friends
