

Student's Name: _____

Grade & Section: __ 8 __

Part 1: MAZE

1-Read the text carefully and choose the correct word/s to complete the sentences:

In science class, we learned about plants. During (1) (**energy / photosynthesis / forest**), plants make their own food using sunlight. They (2) (**upload / take in / melt**) carbon dioxide and let out oxygen. If plants do not get enough light, they (3) (**produced / produce / will produce**) less energy.

Later, our teacher gave us (4) (**advice / prey / ice**) about being safe online. Students (5) (**should / shoulds / shouldn't**) be careful when using social media. Every day, many photos (6) (**share / are shared / sharing**) on the internet by users. (7) (**However / Because / Tomorrow**), not all websites are safe.

Next, we completed a (8) (**survey / bright / predator**) using a tablet and an app. If students (9) (**practised / practise / will practise**) regularly, they improve their grammar. At the end of the lesson, a colourful (10) (**graph / leaves / battery**) explained the results clearly.

1- The correct answer for number (1):

- a. energy
- b. photosynthesis
- c. forest

2- The correct answer for number (2):

- a. upload
- b. take in
- c. melt

3- The correct answer for number (3):

- a. produced
- b. produce
- c. will produce

4- The correct answer for number (4):

- a. advice
- b. prey
- c. ice

5- The correct answer for number (5):

- a. should
- b. shoulds
- c. shouldn't

6- The correct answer for number (6):

- a. share
- b. are shared
- c. sharing

7- The correct answer for number (7):

- a. However
- b. Because
- c. Tomorrow

8- The correct answer for number (8):

- a. survey
- b. bright
- c. predator

9- The correct answer for number (9):

- a. practised
- b. practise
- c. will practise

10- The correct answer for number (10):

- a. graph
- b. leaves
- c. battery
