Protecting Habitats & Weather in the UAE

Nature around us needs care, and we should protect it every day. In the UAE, people must keep the land clean to protect wildlife. We must save trees
because they help nature grow and stay green. People shouldn't throw litter, as it can cause danger to animals.
In summer, it is very hot in the UAE, and it feels warm and sunny. In winter, it is cooler and sometimes windy. When people follow rules and protect habitats, nature stays clean, animals stay safe, and the environment becomes a better place for everyone.
