

Alliance Academy Jordan  
Math/CP Department  
Name: \_\_\_\_\_  
Date: \_\_\_\_\_

Academic Year 2025-2026  
Second semester  
Grade: Three(A & B)  
Subject: Worksheet (10)

**Objective: Learn the 4 and 6 times table**

♥ **4 Times Table – “The Fantastic Fours Table”**

🎵 **Rhyme: “Count by 4s, open the math doors!”**  
**(4... 8... 12... 16... keep marching more!)**

♥ **6 Times Table – “The Double-Three Steps Table”**

🎵 **Rhyme: “Count by 6s, pick up sticks!”**  
**(6... 12... 18... 24... keep stepping fast!)**

---

### 4 Times Table:

Q1: I can complete 4 times table calculations.

$0 \times 4 = \underline{\quad}$

$1 \times 4 = \underline{\quad}$

$2 \times 4 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$5 \times 4 = \underline{\quad}$

$6 \times 4 = \underline{\quad}$

$7 \times 4 = \underline{\quad}$

$8 \times 4 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$10 \times 4 = \underline{\quad}$

Q2: I can complete missing number calculations.

$4 \times \underline{\quad} = 8$

$4 \times \underline{\quad} = 16$

$4 \times \underline{\quad} = 36$

$4 \times \underline{\quad} = 12$

$4 \times \underline{\quad} = 28$

$4 \times \underline{\quad} = 40$

$4 \times \underline{\quad} = 0$

$4 \times \underline{\quad} = 24$

$4 \times \underline{\quad} = 24$

$4 \times \underline{\quad} = 16$

$4 \times \underline{\quad} = 40$

$4 \times \underline{\quad} = 20$

### 6 Times Table:

Q1. I can complete 6 times table calculations.

$0 \times 6 = \underline{\quad}$

$1 \times 6 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$3 \times 6 = \underline{\quad}$

$4 \times 6 = \underline{\quad}$

$5 \times 6 = \underline{\quad}$

$6 \times 6 = \underline{\quad}$

$7 \times 6 = \underline{\quad}$

$8 \times 6 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$10 \times 6 = \underline{\quad}$

Q2. I can complete missing number calculations.

$6 \times \underline{\quad} = 12$

$6 \times \underline{\quad} = 12$

$6 \times \underline{\quad} = 30$

$6 \times \underline{\quad} = 18$

$6 \times \underline{\quad} = 54$

$6 \times \underline{\quad} = 12$

$6 \times \underline{\quad} = 60$

$6 \times \underline{\quad} = 48$

$6 \times \underline{\quad} = 24$

$6 \times \underline{\quad} = 30$

$6 \times \underline{\quad} = 60$

$6 \times \underline{\quad} = 0$

$6 \times \underline{\quad} = 36$

$6 \times \underline{\quad} = 12$

$6 \times \underline{\quad} = 6$
