Part 3: Read the text and choose the correct answer. Choose A, B or C.

Amazing Structures

People around the world built many amazing structures. In Egypt, people made the pyramids with big stones long ago. They are very old and beautiful. In France, engineers designed the Eiffel Tower. It is a famous structure in Paris made of strong metal.

Today, we have very tall buildings called skyscrapers. For example, people built the Burj Khalifa in Dubai. It is the tallest building in the world! Builders used a lot of glass and metal to build it. They used modern design to make it strong. These structures are important because they show how people use different materials like stone and metal to build great things. Each structure has a special story from the past or the present.

Example	<p>What did people use to make the pyramids?</p> <p>A. Glass B. Big stones C. Wood</p>	3	<p>What materials did builders use to build the Burj Khalifa?</p> <p>A. Only big stones B. Glass and metal C. Wood and paper</p>
1	<p>Where can you find the Eiffel Tower?</p> <p>A. In Egypt B. In Dubai C. In France</p>	4	<p>What is the main idea of this text?</p> <p>A. Scientists like to travel. B. Stones are better than glass. C. People build amazing structures with different materials.</p>
2	<p>What are very tall buildings called?</p> <p>A. Skyscrapers B. Pyramids C. Stones</p>	5	<p>Which of the following is NOT mentioned as a structure in the text?</p> <p>A. The Eiffel Tower B. The Burj Khalifa C. The Great Wall of China</p>
